

## IMPORTANT NOTICE

### TOURISM ASSOCIATION MEDJUGORJE UTHIS

Dear parishioners and pilgrims,

As of Tuesday, May 25, 2021, the Mobile Collection Point for Covid testing shall be opened in Medjugorje, serviced by the employees of Health Centre Citluk in cooperation with the Clinical Hospital Mostar. The testing results will be obtained the same day.

The Mobile Collection Point will be located behind the church of St. James in Medjugorje, at the facilities of the Malta Order Ambulance. The access to this Point shall be marked until Tuesday.

Due to making the operation of this Point easier, as well as to prevent bigger crowds, we kindly ask you to follow these instructions:

1. The working hours of the Mobile Collection Point is every day except Sundays from 8 a.m. to 10.30 a.m., if necessary, the hours would be prolonged, depending on the number of persons registered for testing on that particular day.
2. If there are no registered persons for testing, the Mobile Collection Point will not be opened, and testing can be done in the Health Centre Citluk, with the obligatory previous notification.
3. We kindly ask all pilgrimage organisers, owners of hotels and tourist agencies, as well as guides to make reservation for their pilgrims and testing at least 24 hours in advance and this can be done at the email address: [covid19dzcitluk@gmail.com](mailto:covid19dzcitluk@gmail.com), with the remark that the group needs to be tested prior to the return to their home country. While doing so, the type of the test needs to be emphasised, either it is PCR or antigen test. If some additional information should be required, the Health Centre Citluk would notify you on that during registration of pilgrims for testing.
4. When you arrive to the MCP, please respect all measures on wearing masks, keeping distance and hands disinfection.
5. The tests are on the List of all countries of EU.
6. The price of antigen test is 32,00 BAM (17,00€), and PCR SARS CoV-2 test is 85,00 BAM (44,00 €) , AVT included.
7. The confirmations shall be issued in the foreign languages and those translations are included in the price.
8. The test is valid for 48 hours after the sample is taken, so beware of the previous registration and the time of completing this.

We are aware that each new start is difficult and challenging, therefore we kindly ask you to follow these instructions, so the work of all the workers would be easier, and all pilgrims could be enabled to receive necessary documentation for returning to their homes.

Should you have any additional questions, please do not hesitate to contact us on [info@medjugorje-royal.ba](mailto:info@medjugorje-royal.ba) since we are partners and members of this Association.
